

## BWISC Auction 2018 – Unsold Offers / Order Form

**Introduction.** The unsold lots from Auction 46 are listed following. In most cases, reserves are fixed and maintained, and otherwise items are priced at their actual starting level for auction. There has been no time for custom-made grouping, as in recent years past, and the price concessions which follow are made entirely out of Circle commission on sales with no detriment to sellers.

**Sales under £100** (based on gross estimates). These will be charged at the prices below, with addition for postage only (packing and insurance are not added).

**Sales £100 and up** (based on gross estimates). Treated as private treaty sales, qualifying for **5% reduction** on price of all items purchased. If, by reason only, that a listed item has been withdrawn by an owner, purchase total falls short, reduction will still apply. Postage and packing (together with insurance calculated at 0.4%) will be added as normal.

**Condition** (for strict application). The above concessions apply **only** to purchasers who place their orders on the order form, or true copy, completed with name and full address. Orders in any other form will be dealt with, but concessions will lapse. (We are not becoming bureaucratic. This eases administration, and documents transactions for insurance purposes). Priority depends on time of receipt of orders. Where time of receipt cannot be determined, the buyer furthest from central London is accorded priority.

**Foreign Currency.** Accounts are rendered in sterling. Payments in US\$ equivalent may be made within the USA by cheque through a US bank, but the exchange rate must first be agreed with Simon in view of volatility of rates.

Payment in any other currency may be possible, but must be negotiated with Simon.

Time for payment can be extended by arrangement with Simon, and is normally interest free. This benefit also applies to payers in sterling.

**Additional Orders.** Where any previous purchaser comes back for more, the earlier transaction will be aggregated in calculating the price of later purchasers, but the billing for the earlier purchases will not be revisited.
